

**Product Notice 2020-0354**

Date: September 18, 2020

Re: SPDR S&P Software, Healthcare and Aerospace & Defense ETF

MEMX LLC ("MEMX or the "Exchange") was approved by the Securities and Exchange Commission as a registered national securities exchange on May 4, 2020. MEMX intends to commence trading and other operations in September of 2020. This Product Notice is being issued to advise you that the following securities have been approved for trading pursuant to unlisted trading privileges ("UTP") on MEMX as UTP Derivative Securities pursuant to MEMX Rule 14.1.

<b><u>Securities (the "Fund" or the "ETF")</u></b>	<b><u>Symbol</u></b>
SPDR S&P Aerospace & Defense	XAR
SPDR S&P Health Care Services ETF	XHS
SPDR S&P Software & Services ETF	XSW

Issuer/Trust: SDPR Series Trust

Issuer Website: [www.spdrs.com](http://www.spdrs.com)

Primary Listing Exchange: NYSE Arca

Compliance and supervisory personnel should note that, among other things, this Product Notice discusses the need to deliver a prospectus to customers purchasing shares of the exchange-traded fund. Please forward this Product Notice to interested persons within your organization.

The purpose of this Product Notice is to outline various rules and policies that will be applicable to trading in these new products pursuant to the Exchange's unlisted trading privileges, as well as to provide certain characteristics and features of the securities. For a more complete description of the Issuer, the securities, and the underlying market instruments or indexes, visit the Issuer Website, consult the Prospectus available on the Issuer Website or examine the Issuer Registration Statement, or review the most current information bulletin issued by the Primary Listing Exchange. The Issuer Website, the Prospectus and the Issuer Registration Statement are hereafter collectively referred to as the "Issuer Disclosure Materials."

**Background Information on the Fund**

The SPDR Series Trust (the "Trust") is a management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"). The Trust consists of several exchange-traded funds (each, a "Fund" and collectively, the "Funds"). This circular refers only to the Funds listed above. The shares of each of the Funds listed above are referred to herein as "Shares." SSgA Funds Management, Inc. (the "Adviser") is the investment adviser for the Funds.

The SPDR S&P Software & Services ETF seeks to replicate as closely as possible, before expenses, the performance of the S&P Software & Services Select Industry Index (the "Software Index"). The Fund

employs a replication strategy, which means that the Fund typically invests in substantially all of the securities represented in the Software Index in approximately the same proportions as the Software Index.

Under normal market conditions, the Fund generally invests substantially all, but at least 80%, of its total assets in the securities comprising the Software Index. The Fund will provide shareholders with at least 60 days notice prior to any material change in this 80% investment policy. In addition, the Fund may invest in equity securities that are not included in the Software Index, futures, options, swap contracts and other derivatives, cash and cash equivalents or money market instruments, such as repurchase agreements and money market funds (including money market funds advised by the Adviser).

The Software Index represents the application software, data processing and outsourced services, home entertainment software, internet software and services, IT consulting, and systems software sub-industries of the S&P Total Stock Market Index ("S&P TMI"). The Software Index is one of twenty-five (25) S&P Select Industry Indices (the "Select Industry Indices"), each designed to measure the performance of a narrow sub-industry or group of sub-industries as defined by the Global Industry Classification Standards ("GICS"). Membership in the Select Industry Indices is determined by a stock's GICS classification, as well as by liquidity and market cap requirements. Companies in the Select Industry Indices are classified based primarily on revenues; however, earnings and market perception are also considered. The Software Index consists of the S&P TMI constituents belonging to a particular GICS sub-industry or group of sub-industries that satisfy the following criteria: (i) have a float-adjusted market capitalization above \$500 million ("market capitalization threshold") with a liquidity ratio (defined by dollar value traded over the previous 12 months divided by average market capitalization over the previous 12 months) greater than or equal to 90% (the "liquidity threshold") or have a float-adjusted market capitalization above \$400 million ("market capitalization threshold") with a liquidity ratio (defined by dollar value traded over the previous 12 months divided by average market capitalization over the previous 12 months) greater than or equal to 150% (the "liquidity threshold"); (ii) represent 100% of the float-adjusted market capitalization of the relevant GICS sub-industry(ies); (iii) are U.S.-based companies; and (iv) the length of time to evaluate liquidity is reduced to the available trading period for initial public offerings or spin-offs that do not have 12 months of trading history. S&P has separated the inclusion and exclusion criteria such that existing index constituents may satisfy a lower market capitalization and trading volume requirement than those not included in the index as of the index rebalancing reference date. Existing index members must have a float-adjusted market capitalization above \$300 million with a liquidity ratio greater or equal to 50%. Rebalancing occurs on the third Friday of the quarter-ending month. The S&P TMI tracks all the U.S. common stocks listed on the NYSE (including NYSE Arca and NYSE Amex), the NASDAQ Global Select Market, the NASDAQ Select Market and the NASDAQ Capital Market. The Software Index is an equal weighted market cap index. As of August 31, 2011, the Software Index was comprised of 134 stocks.

The SPDR S&P Health Care Services ETF seeks to replicate as closely as possible, before expenses, the performance of the S&P Health Care Services Select Industry Index (the "Health Care Index"). The Fund employs a replication strategy, which means that the Fund typically invests in substantially all of the securities represented in the Health Care Index in approximately the same proportions as the Health Care Index.

Under normal market conditions, the Fund generally invests substantially all, but at least 80%, of its total assets in the securities comprising the Health Care Index. The Fund will provide shareholders with at least

60 days notice prior to any material change in this 80% investment policy. In addition, the Fund may invest in equity securities that are not included in the Health Care Index, futures, options, swap contracts and other derivatives, cash and cash equivalents or money market instruments, such as repurchase agreements and money market funds (including money market funds advised by the Adviser).

The Health Care Index represents the health care providers and services sub-industry portion of the S&P Total Stock Market Index ("S&P TMI"). The Health Care Index is one of nineteen (19) of the S&P Select Industry Indexes (the "Select Industry Indexes"), each designed to measure the performance of a narrow sub-industry determined based on the Global Industry Classification Standards ("GICS"). Membership in the Select Industry Indexes is based on the GICS classification, as well as liquidity and market cap requirements. Companies in the Select Industry Indexes are classified based primarily on revenues; however, earnings and market perception are also considered. The Index consists of the S&P TMI constituents belonging to the particular GICS sub-industry (e.g., health care providers and services) that satisfy the following criteria: (i) have a float-adjusted market capitalization above \$500 million ("market capitalization threshold") and rank within the 90th percentile of the float-adjusted market capitalization of the GICS sub-industry; (ii) are a U.S.-based company; and (iii) have a liquidity ratio (defined by dollar value traded over the previous 12 months divided by average market capitalization over the previous 12 months) greater than 60% (the "liquidity threshold"). The length of time to evaluate liquidity is reduced to the available trading period for initial public offerings or spin-offs that do not have 12 months of trading history. Companies are added sequentially in order of float-adjusted market capitalization until the cumulative float-adjusted market capitalization equals 90% of each relevant GICS sub-industry. If there are fewer than 25 stocks, stocks from a supplementary list of highly correlated sub-industries that meet the market capitalization and liquidity thresholds are included in order of their float-adjusted market capitalization. The market capitalization threshold may be relaxed to ensure that there are at least 22 stocks in the Index as of the rebalancing effective date. The market capitalization threshold and the liquidity threshold are each reviewed from time to time based on market conditions. Rebalancing occurs on the third Friday of the quarter ending month. The S&P TMI tracks all the U.S. common stocks listed on the NYSE (including NYSE Arca and NYSE Amex), the NASDAQ Global Select Market, the NASDAQ Select Market and the NASDAQ Capital Market. The Health Care Index is an equal weighted market cap index. As of September 30, 2010, the Health Care Index was comprised of 34 stocks.

The SPDR S&P Aerospace & Defense ETF seeks to replicate as closely as possible, before expenses, the performance of the S&P Aerospace & Defense Select Industry Index (the "Defense Index"). The Fund employs a replication strategy, which means that the Fund typically invests in substantially all of the securities represented in the Defense Index in approximately the same proportions as the Defense Index.

Under normal market conditions, the Fund generally invests substantially all, but at least 80%, of its total assets in the securities comprising the Defense Index. The Fund will provide shareholders with at least 60 days notice prior to any material change in this 80% investment policy. In addition, the Fund may invest in equity securities that are not included in the Defense Index, futures, options, swap contracts and other derivatives, cash and cash equivalents or money market instruments, such as repurchase agreements and money market funds (including money market funds advised by the Adviser).

The Defense Index represents the aerospace and defense sub-industry portion of the S&P

Total Stock Market Index (the "S&P TMI"). The Defense Index is one of nineteen (19) of the S&P Select Industry Indexes (the "Select Industry Indexes"), each designed to measure the performance of a narrow sub-industry determined based on the Global Industry Classification Standards ("GICS"). Membership in the Select Industry Indexes is based on the GICS classification, as well as liquidity and market cap requirements. Companies in the Select Industry Indexes are classified based primarily on revenues; however, earnings and market perception are also considered. The Index consists of the S&P TMI constituents belonging to the particular GICS sub-industry (e.g., aerospace & defense) that satisfy the following criteria: (i) have a float-adjusted market capitalization above \$500 million ("market capitalization threshold") and rank within the 90th percentile of the float-adjusted market capitalization of the GICS sub-industry; (ii) are a U.S.-based company; and (iii) have a liquidity ratio (defined by dollar value traded over the previous 12 months divided by average market capitalization over the previous 12 months) greater than 60% (the "liquidity threshold"). The length of time to evaluate liquidity is reduced to the available trading period for initial public offerings or spin-offs that do not have 12 months of trading history. Companies are added sequentially in order of float-adjusted market capitalization until the cumulative float-adjusted market capitalization equals 90% of each relevant GICS sub-industry. If there are fewer than 25 stocks, stocks from a supplementary list of highly correlated sub-industries that meet the market capitalization and liquidity thresholds are included in order of their float-adjusted market capitalization. The market capitalization threshold may be relaxed to ensure that there are at least 22 stocks in the Defense Index as of the rebalancing effective date. The market capitalization threshold and the liquidity threshold are each reviewed from time to time based on market conditions. Rebalancing occurs on the third Friday of the quarter ending month. The S&P TMI tracks all the U.S. common stocks listed on the NYSE (including NYSE Arca and NYSE Amex), the NASDAQ Global Select Market, the NASDAQ Select Market and the NASDAQ Capital Market. The Defense Index is an equal weighted market cap index. As of September 30, 2010, the Defense Index was comprised of 25 stocks.

As described more fully in the Trust's prospectus and Statement of Additional Information ("SAI"), the Funds issue and redeem Shares at net asset value ("NAV") only in large blocks of 50,000 Shares (each block of Shares called a "Creation Unit") or multiples thereof. As a practical matter, only broker-dealers or large institutional investors with creation and redemption agreements (called Authorized Participants) can purchase or redeem these Creation Units. Except when aggregated in Creation Units, the Shares may not be redeemed with the Funds.

Income dividend distributions, if any, are generally distributed to shareholders quarterly, but may vary significantly from quarter to quarter. Net capital gains are distributed at least annually.

Shares are held in book-entry form, which means that no Share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares of the Funds and is recognized as the owner of all Shares for all purposes.

The NAV per Share for each Fund is computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares outstanding. Expenses and fees are accrued daily and taken into account for purposes of determining NAV. The NAV of each Fund is determined each business day after the close of trading (ordinarily 4:00 p.m., Eastern Time or "ET") of the New York Stock Exchange. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

Please see the Fund’s prospectus for more information regarding the Fund and its investment objective.

The registration statement for the Funds describes the various fees and expenses for the Funds’ Shares. For a more complete description of the Funds and the underlying indexes, visit the Issuer Website.

#### Principal Risks

Interested persons are referred to the discussion in the prospectus for the Funds of the principal risks of an investment in the Funds. These include tracking error risk (factors causing a Fund’s performance to not match the performance of its underlying index), market trading risk (for example, trading halts, trading above or below net asset value), investment style risk, sector risk, investment approach risk, non-diversification risk, issuer-specific risk, management risk, concentration risk and sector risk.

#### Exchange Rules Applicable to Trading in the Shares

Trading in the Shares on MEMX is subject to MEMX trading rules.

#### Trading Hours

The value of the Index underlying the Shares will be disseminated to data vendors every 15 seconds during the Regular Trading Session.

The Shares will trade on MEMX between 7:00 a.m. and 8:00 p.m. Please note that trading in the Shares during the Exchange’s Pre-Market and Post-Market Sessions (“Extended Market Sessions”) may result in additional trading risks which include: (1) that the current underlying indicative value may not be updated during the Extended Market Sessions, (2) lower liquidity in the Extended Market Sessions may impact pricing, (3) higher volatility in the Extended Market Sessions may impact pricing, (4) wider spreads may occur in the Extended Markets Sessions, and (5) because the indicative value is not calculated or widely disseminated during the Extended Market Sessions, an investor who is unable to calculate an implied value for the Shares in those sessions may be at a disadvantage to market professionals.

#### Dissemination of Data

The Consolidated Tape Association will disseminate real time trade and quote information for the Shares to Tape B.

<i>Name</i>	<i>Listing Market</i>	<i>Trading Symbol</i>	<i>IOPV Symbol</i>	<i>NAV Symbol</i>
SPDR S&P Aerospace & Defense	NYSE Arca	XAR	XAR .IV	XAR .NV
SPDR S&P Health Care Services ETF	NYSE Arca	XHS	XHS .IV	XHS .NV
SPDR S&P Software & Services ETF	NYSE Arca	XSW	XSW .IV	XSW .NV

#### Delivery of a Prospectus

MEMX Members should be mindful of applicable prospectus delivery requirements under the federal securities laws with respect to transactions in the Fund. Prospectuses may be obtained through the Funds’

website. The prospectus for the Fund does not contain all of the information set forth in the Funds' Registration Statement (including the exhibits to the Registration Statement), parts of which have been omitted in accordance with the rules and regulations of the SEC. For further information about the Fund, please refer to its Registration Statement.

In the event that the Fund relies upon an order by the SEC exempting the Shares from certain prospectus delivery requirements under Section 24(d) of the Investment Company Act of 1940 and in the future make available a written product description, MEMX Rules requires that MEMX Members provide to all purchasers of Shares a written description of the terms and characteristics of such securities, in a form prepared by the Issuer of the Fund, no later than the time a confirmation of the first transaction in the Shares is delivered to such purchaser. In addition, MEMX Members shall include such a written description with any sales material relating to the Shares that is provided to customers or the public. Any other written materials provided by a MEMX member to customers or the public making specific reference to the Shares as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of [*the UTP Derivative Securities*] has been prepared by the [*opened management investment company name*] and is available from your broker. It is recommended that you obtain and review such circular before purchasing [*the UTP Derivative Securities*]."

A MEMX member carrying an omnibus account for a non-member broker-dealer is required to inform such non-member that execution of an order to purchase Shares for such omnibus account will be deemed to constitute agreement by the non-member to make such written description available to its customers on the same terms as are directly applicable to MEMX member under this rule.

Upon request of a customer, MEMX Members also shall provide a copy of the Prospectus.

#### Suitability

Trading in the securities on the Exchange will be subject to the provisions of MEMX Rule 3.7 and other applicable suitability rules. Members recommending transactions in the securities to customers should make a determination that the recommendation is suitable for the customer.

#### Trading Halts

MEMX will halt trading in the Shares of a security in accordance with MEMX Rules. The grounds for a halt under MEMX Rules include a halt by the primary market because the intraday indicative value of the security and/or the value of its underlying index are not being disseminated as required, or a halt for other regulatory reasons. In addition, MEMX will stop trading the Shares of a security if the primary market de-lists the security.

#### Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations

The Securities and Exchange Commission (the "SEC") has issued letters granting exemptive, interpretive and no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 for exchange-traded securities listed and traded on a registered national securities exchange that meet certain criteria.

AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO-ACTION LETTERS FOR MORE COMPLETE INFORMATION REGARDING THE MATTERS COVERED THEREIN AND THE APPLICABILITY OF THE RELIEF GRANTED IN RESPECT OF TRADING IN SECURITIES. INTERESTED PARTIES SHOULD ALSO CONSULT THEIR PROFESSIONAL ADVISORS.

#### Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any “distribution participant” and its “affiliated purchasers” from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund’s securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

#### Rule 10b-10 (Customer Confirmations for Creation or Redemption of Fund Shares)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations (“Deposit Securities”) or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder (“Redemption Securities”). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemption is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c); and
- 3) Except for the identity, number, and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

#### Rule 10b-17 (Untimely Announcement of Record Dates)

The SEC has granted an exemption from the requirements of Rule 10b-17 that will cover transactions in the Shares.

#### Section 11(d)(1); Rule 11d1-2 (Customer Margin)

The SEC has taken a no-action position under Section 11(d)(1) that will permit broker-dealers that do not create Shares but engage in both proprietary and customer transactions in such Shares exclusively in the secondary market to extend or maintain or arrange for the extension or maintenance of credit on the Shares, in connection with such secondary market transactions. For broker-dealers that engage in the creation of Shares, the SEC has also taken a no-action position under Rule 11d1-2 that will cover the extension or maintenance or the arrangement for the extension or maintenance of credit on the Shares that have been owned by the persons to whom credit is provided for more than 30 days.

#### Rule 14e-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

#### SEC Rule 15c1-5 and 15c1-6 (Disclosure of Control and interest in Distributions)

The SEC has taken a no-action position under Rule 15c1-5 that will permit a broker-dealer to execute transactions in Shares without disclosing any control relationship with an issuer of a component security. In addition, the SEC has taken a no-action position under Rule 15c1-6 that will permit a broker dealer to execute transactions in the Shares without disclosing its participation or interest in a primary or secondary distribution of a component security.

**This Product Notice is not a statutory prospectus. Members should consult the Prospectus for a security and the security's website for relevant information.**
