

Product Notice 2021-192

Date: August 18, 2021

Re: BMO ETNs

Pursuant to the Rules of MEMX LLC (“MEMX or the “Exchange”), this Product Notice is being issued to advise you that the following securities have been approved for trading pursuant to unlisted trading privileges (“UTP”) on the Exchange as UTP Derivative Securities pursuant to MEMX Rule 14.1.

<u>Securities (the “Fund” or the “ETF”)</u>	<u>Symbol</u>
MicroSectors FANG & Innovation 3x Leveraged ETN	BULZ
MicroSectors FANG & Innovation -3x Inverse Leveraged ETN	BERZ

Issuer/Trust: BMO

Primary Listing Exchange: NYSE Arca

Compliance and supervisory personnel should note that, among other things, this Product Notice discusses the need to deliver a prospectus to customers purchasing shares of the exchange-traded fund. Please forward this Product Notice to interested persons within your organization.

The purpose of this Product Notice is to outline various rules and policies that will be applicable to trading in these new products pursuant to the Exchange’s unlisted trading privileges, as well as to provide certain characteristics and features of the securities. For a more complete description of the Issuer, the securities, and the underlying market instruments or indexes, visit the Issuer Website, consult the Prospectus available on the Issuer Website or examine the Issuer Registration Statement, or review the most current information bulletin issued by the Primary Listing Exchange.

Background Information on the Notes

The Note is the unsecured obligation of a financial institution that provides for the payment at maturity of a cash amount based on the performance of an index or other reference asset (e.g. commodities, currencies or other financial instruments or benchmarks). The Note’s underlying index name, IIV symbol and website are set forth below:

<u>Underlying Index</u>	<u>IIV Symbol</u>	<u>Website</u>
SOLFANGT Index	BULZ.IV	https://www.bmoetns.com/
SOLFANGT Index	BERZ.IV	https://www.bmoetns.com/

The Note's Registration Statement and pricing supplement provide a description of the Note, including information about payment at maturity, redemption features, fees and dividends. For a more complete description of each Note and its underlying index, see the Note's Registration Statement and pricing supplement and its website.

Investment Risks

Interested persons are referred to each Note's Registration Statement for a description of risks associated with an investment in that Note. Investing in a Note involves a number of risks not associated with an investment in conventional debt securities. An investment in a Note involves significant risks and is not appropriate for every investor. Investing in a Note is not equivalent to investing directly in the index underlying such Note. Accordingly, a Note should be purchased only by knowledgeable investors who understand the terms of the investment and are familiar with the behavior of the underlying index and financial markets generally. The Notes are riskier than ordinary unsecured debt securities.

Risks associated with an investment in a Note may include, but are not limited to, issuer creditworthiness; loss of all or a substantial portion of an investment in such Note; no guaranteed minimum payment at maturity or call, or upon acceleration or early redemption, no payment of interest or any coupon amount; risks associated with the applicable index or reference asset; acceleration and redemption, resulting in a loss of all or a substantial portion of an investment; and restriction on the minimum number of Notes that may be redeemed and on the procedures and timing for early redemption.

Exchange Rules Applicable to Trading in the Shares

Trading in the Shares on MEMX is subject to MEMX trading rules.

Trading Hours

The value of the Index underlying the Shares will be disseminated to the data vendors every 15 seconds during the Regular Trading Session.

The Shares will trade on MEMX between 7:00 am and 5:00 pm (EST). Please note that trading in the Shares during the Exchange's Pre-Market and Post-Market Sessions ("Extended Market Sessions") may result in additional trading risks which include: (1) that the current underlying indicative value may not be updated during the Extended Market Sessions, (2) lower liquidity in the Extended Market Sessions may impact pricing, (3) higher volatility in the Extended Market Sessions may impact pricing, (4) wider spreads may occur in the Extended Markets Sessions, and (5) because the indicative value is not calculated or widely disseminated during the Extended Market Sessions, an investor who is unable to calculate an implied value for the Shares in those sessions may be at a disadvantage to market professionals.

Delivery of a Prospectus

Exchange Members should be mindful of applicable prospectus delivery requirements under the federal securities laws with respect to transactions in the Fund. Prospectuses may be obtained through the Fund's website. The Prospectus for the Fund does not contain all of the information set forth in the Fund's Registration Statement (including the exhibits to the Registration Statement), parts of which have been

omitted in accordance with the rules and regulations of the SEC. For further information about the Fund, please refer to its Registration Statement.

In the event that the Fund relies upon an order by the SEC exempting the Shares from certain prospectus delivery requirements under Section 24(d) of the 1940 Act and in the future make available a written product description, Exchange Rules require that Exchange Members provide to all purchasers of Shares a written description of the terms and characteristics of such securities, in a form prepared by the Issuer of the Fund, no later than the time a confirmation of the first transaction in the Shares is delivered to such purchaser. In addition, Exchange Members shall include such a written description with any sales material relating to the Shares that is provided to customers or the public. Any other written materials provided by a MEMX member to customers or the public making specific reference to the Shares as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of [the UTP Derivative Securities] has been prepared by the [open-ended management investment company name] and is available from your broker. It is recommended that you obtain and review such circular before purchasing [the UTP Derivative Securities]."

An Exchange member carrying an omnibus account for a non-member broker-dealer is required to inform such non-member that execution of an order to purchase Shares for such omnibus account will be deemed to constitute agreement by the non-member to make such written description available to its customers on the same terms as are directly applicable to such Exchange member under this rule.

Upon request of a customer, Exchange Members also shall provide a copy of the Prospectus.

Suitability

Trading in the securities on the Exchange will be subject to MEMX Rule 3.7 and other applicable suitability rules. Members recommending transactions in the securities to customers should make a determination that the recommendation is suitable for the customer.

Trading Halts

The Exchange will halt trading in the Shares of a security in accordance with the Exchange's Rules. The grounds for a halt include a halt because the intraday indicative value of the security and/or the value of its underlying index are not being disseminated as required, a halt for other regulatory reasons or due to other conditions or circumstances deemed to be detrimental to the maintenance of a free and orderly market. In addition, MEMX will stop trading the Shares of a security if the primary market de-lists the security.

This Product Notice is not a statutory prospectus. Members should consult the Prospectus for a security and the security's website for relevant information.

Please contact MEMX Regulation at regulation@memx.com with any inquiries regarding this Product Notice.
