

## Product Notice 2024-39

Date: January 26, 2024

Re: Alerian MLP Index ETNs due January 28, 2044

Pursuant to the Rules of MEMX LLC ("MEMX or the "Exchange"), this Product Notice is being issued to advise you that the following securities have been approved for trading pursuant to unlisted trading privileges ("UTP") on the Exchange as UTP Derivative Securities pursuant to MEMX Rule 14.1.

<u>Securities (the "Notes" or the "ETNs")</u>	<u>Symbol</u>
Alerian MLP Index ETNs due January 28, 2044	AMJB

**Issuer/Trust:** Alerian MLP Index ETNs due January 28, 2044

**Issuer/Trust Website:** <https://www.jpmorganetns.com/>

**Primary Listing Exchange:** NYSE Arca

The purpose of this Product Notice is to outline various rules and policies that will be applicable to trading in these new products pursuant to the Exchange's unlisted trading privileges, as well as to provide certain characteristics and features of the Notes.

### **Background Information on the Notes**

The Note is the unsecured obligation of a financial institution that provides for the payment at maturity of a cash amount based on the performance of an index or other reference asset (e.g., commodities, currencies or other financial instruments or benchmarks).

The Note's Registration Statement and pricing supplement provide a description of the Note, including information about payment at maturity, redemption features, fees and dividends. For a more complete description of the Note, and its underlying index, see the Note's Registration Statement and pricing supplement and its website.

### **Investment Risks**

Interested persons are referred to the Note's Registration Statement for a description of risks associated with an investment in the Notes. Investing in the Notes involves a number of risks not associated with an investment in conventional debt securities. An investment in the Notes involves significant risks and is not appropriate for every investor. Investing in the Notes is not equivalent to investing directly in the index underlying the Note. Accordingly, the Notes should be purchased only by knowledgeable investors who understand the terms of the investment and are familiar with the behavior of each underlying index and financial markets generally. The Notes are riskier than ordinary unsecured debt securities.

Risks associated with an investment in the Notes may include, but are not limited to, issuer creditworthiness; loss of all or a substantial portion of an investment in the Notes; no guaranteed minimum payment at maturity or call, or upon acceleration or early redemption, no payment of interest or any coupon amount; risks associated with the applicable index or reference asset; acceleration and redemption, resulting in a loss of all or a substantial portion of an investment; and restriction on the minimum number of Notes that may be redeemed and on the procedures and timing for early redemption.

### **Exchange Rules Applicable to Trading in the Notes**

Trading in the ETNs on MEMX is subject to MEMX trading rules.

### **Trading Hours**

The ETNs will trade on MEMX between 7:00 am and 5:00 pm (EST). Please note that trading in the ETNs during the Exchange's Pre-Market and Post-Market Sessions ("Extended Market Sessions") may result in additional trading risks which include: (1) that the current underlying indicative value may not be updated during the Extended Market Sessions, (2) lower liquidity in the Extended Market Sessions may impact pricing, (3) higher volatility in the Extended Market Sessions may impact pricing, (4) wider spreads may occur in the Extended Markets Sessions, and (5) because the indicative value is not calculated or widely disseminated during the Extended Market Sessions, an investor who is unable to calculate an implied value for the Notes in those sessions may be at a disadvantage to market professionals.

### **Suitability**

Trading in the securities on the Exchange will be subject to MEMX Rule 3.7 and other applicable suitability rules. Members recommending transactions in the securities to customers should make a determination that the recommendation is suitable for the customer.

### **Trading Halts**

The Exchange will halt trading in the ETNs in accordance with the Exchange's Rules. The grounds for a halt include a halt because the intraday indicative value of the security and/or the value of its underlying index are not being disseminated as required, a halt for other regulatory reasons or due to other conditions or circumstances deemed to be detrimental to the maintenance of a free and orderly market.

**This Product Notice is not a statutory prospectus. Members should consult the Prospectus for a security and the security's website for relevant information.**
